FNARES: CAPTAIN HIS HIGHNESS MAHARAIA SIR ADITYA NARAIN SINGH BAHADUR, K.C.S.I., D.LITT., the present Ruler of Benares.

Rorn: On 17th November, 1874. Received liberal education in Sanskrit, Persian and English and is a great reader

of books.

In his fondness for Shikar specially big game His Highness takes closely to his father the late Maharaja Sir Prabhu Narain Singh Bahadur. He is also a good

rider and used to play polo in his earlier His Highness possesses a thorough

insight into the details of administration relating to all the important Departments and always devotes a considerable portion of his time to State work. He is readily accessible to all his subjects high or low and likes to hear all that they have to say.

The Kingdom of Benares under its Hindu Rulers existed from time immemorial and finds mention in the Hindu and Buddhist literature. In the 12th century it was conquered by Sahab-ud-din Ghori and formed a separate province of the Mohammadan Empire. In the 18th century when the power of Moghal Emperors declined after the death of Aurangzeb, Raja Mansa Ram an enterprising Zemindar of Gangapur (Benares District) obtained a Sanad from the Emperor Mohammad Shah of Delhi in the name of his son Raja Balwant Singh in 1738 and founded the Benares State, which comprised the four sirkars of Benares, Ghazipur, Jaunpur and Chunar. Raja Mansa Ram died in 1740 and his son Balwant Singh became the virtual ruler. During the next 30 years attempts were made by Safadar Jung and after him by Shuja-ud-daula of Oudh to destroy the independence of the Raja but the latter withstood them successfully, strengthened his position and built the Fort of Ramnagar on the bank of the Ganges opposite the Benares City. Raja Balwant Singh died in 1770 and was succeeded by his son Chet Singh. He was expelled by Warren Hastings. Balwant Singh's daughter's son Mahip Narain Singh was then placed on the Gadi. The latter proved an imbecile and there was maladministration which led to an agreement in 1794 by which the lands held by the Raja in his own right, recognised by the British Government, were separated from the rest of the province. The direct control of the latter province was assumed by the British Government under an arrangement by which the surplus revenue of the province which was worked out at the time to be one lac rupees was granted to the Raja while the former constituted the Domains. Within the Domains the Raja had revenue powers similar to those of a Collector in a British District. There was thus constituted what for over a century was known as the Family Domains of the Maharaja of Benares. On the 1st of April, 1911, the major portion of these Domains became a State consisting of the perganas of Bhadolii and Chakia (or Kera Mangraur). The town of Ramnagar and its neighbouring villages were ceded by the British Government to the Maharaja in 1918 and became part of the State. The State now consists of three districts, viz., Bhadohi, Chakia and Ramnagar.

The British system of administration in the U.P. is closely followed. The Diwan or Chief Minister is designated the Chief Secretary.

Jaisalmer State is a sovereign State in Rajputana. The Ruling House is the acknowledged head of the Lunar Race and the Rulers of Jaisalmer are the direct lineal descendants of Lord Shri Krishna. One of the most venerable and prized heirlooms of the House of Jaisalmer is the "Merha-

deshina, and ouse gharella made by Vishwakarmalan State occasions. The sig-

dambar"-the Regal Umbrella made by Vishwakarma-which was used by Lord Shri Krishna on State occasions. The eight-metalled umbrella which surmounts the palace of Jaisalmer towering high above the venerable walls of the historic hill-fort is emblematic of the "Merhadambar" and is indicative of the proud position which the House of Jaisalmer occupies in India as the head of the Lunar Race and its off-shoots. The Rulers of Jaisalmer are, therefore, styled as "Chhatrala Yadavapati "-the canopied Lords of the Yadavas. There is no Ruling House in India with the exception of Udaipur that can claim to be founded earlier than Jaisalmer. In the time of Maharawal Amar Singh (1661-1702) the Jaisalmer State was at the zenith of its power and glory and commanded an area of over 100,000 square miles. Its territory extended North to the Sutlei, comprising the whole of the Bahawalpur State, westward to the Indus including Sukkur, Bhukkur, Rohri, &c., in Sind; to the East and South included many districts such as Pugal (now in Bikaner), Pokaran, Barmer, Girab and Phalodi (now in Jodhpur). It was because of this vast territory that the Rulers of Jaisalmer were styled as "Pashchimdhar Badshah", i.e., "the King of the Western lands." The State still commands an area of about 16,062 square miles and is the third largest State in Rajputana and eighth largest State in India including Kalat. During the reign of Maharawal Mulraj this State entered into Political Relationship, with the British Government by a Treaty of "Perpetual Friendship Alliance and Unity of Interests" in 1818. Jaisalmer State has never paid tribute to any power. Permanent Salute :- 15 guns.

Lime and its derivatives form the chief industry of the State and a company has just been floated for the manufacture of Cement and its bye-products.

The agricultural and horticultural produce of the State include

food grains, oil seeds, sugarcane, fruit, etc., etc.

The presence in the State of inexhaustible deposits of the finest Limestone almost on the surface—with the railway passing through its heart from end to end is a promising factor for a wide industrial development—while there still remain very good prospects for industries like the manufacture of oil, soap, sugar, alcohol, dry ice and the like.

A thorough overhauling of the State machinery and remodelling it on up-to-date British Indian lines and the construction and remodelling of the public and administrative buildings—Palace, Guest Houses, Schools, Hospitals, roads and electricity are some of the conspicuous improvements that mark the progressive and prosperous regime of the present Ruler.

Mayurbhanj ranks first in point of population among the States of the Eastern States Agency, numbering forty-two, twenty-six of which were till recently known as the Orissa States, fourteen as the Central Provinces States, and two as the Bengal States. The history of its Ruling family goes back into hoary antiquity and numerous copper plate grants and archæological finds testify to its powerful sway, and to the vast domains that constituted the territory of the Bhanja Kings, for hundreds of years. Its geographical and strategic position constituted it an important buffer State at the time when the East India Company and the Mahrathas were engaged in a struggle for supremacy in Eastern India and Mayurbhanj assisted the British cause. During the Mutiny of 1857, the Ruler of Mayurbhanj again distinguished himself as a loyal ally of the East India Company. The State is administered very much on British Indian lines, judicial independence, which has been secured under a full-powered High Court, being a special feature of its administration. The State is rich in mineral and forest resources and supplies the bulk of the iron ore needed for the Tata Iron and Steel Works of Jamshedpur. The activities of the Geological Department, recently organised by the State, are likely to lead to valuable results. The present administration is making every effort to promote the industrial interests of the State.

The town of Partabgarh was founded in 1698 by Partabsingh. In the time of Jaswant Singh (1775-1844) the country was overrun by the Marathas, and the Maharawat only saved his State by agreeing to pay Holkar

a tribute of Salim Shahi Rs. 72,700 (which then being coined in the State Mint was legal tender throughout the surrounding Native States), in lieu of Rs. 15,000 formerly paid to Delhi. The first connection of the State with the British Government was formed in 1504; but the treaty then entered into was subsequently cancelled by Lord Cornwallis and a fresh treaty was made in 1818. His Highness Lieutenant Maharaja Rajendra Prakash Bahadur was born on the 10th

January, 1913. He was carefully educated during the lifetime of his father who took special interest in giving his son the all-round training required for shouldering the heavy responsibilities of a ruler. When his father Lieut...Col. His Highness Maharaja Sir Amar Prakash Bahadur, K.C.S.L., K.C.I.E., was absent in Europe, the administration of the State was placed in the hands of a council and the present Ruler was also put in it to gain practical training and knowledge of the administrative intricacies. The young Prince, a good scholar and intelligent far beyond his years, took full advantage of this arrangement and picked up the details of administration very quickly. In recognition of his exceptional administrative abilities he was installed to his ancestral gadi, much before the due time, in November, 1933, when he was only 21 years old.

The young Maharaja is a keen all-round sportsman. The breadth of his outlook and keenness of his intellect is manifest in all his administrative achievements. He has given strong proofs of these by introducing various remarkable progressive changes in his State within the short space of about four years and a half. When he took over the reins of government of the State, the administration was carried on by the Ruler with the assistance of four Secretaries and a separate High Court, of which the Ruler himself was the Chief Justice. Under the new constitution introduced by the present Ruler, a Council of four Ministers has been established to carry on the administration. A retired District and Sessions Judge from the U.P. Government has been appointed Chief Justice who administers Justice with the assistance of another qualified lawyer appointed as a puisne Judge. The Judiciary has been completely separated from the Executive. All the departments have been thoroughly overhauled and highly qualified and experienced officers have been appointed to run them.

With a view to ameliorate the economic condition of the poor, a Rural Uplift Committee has been appointed to suggest, after thorough enquiry into local circumstances, ways and means of improving the lot of the poor peasants, and redeeming their old debts. A Co-operative Department has been created and 55 societies have already been established. An annual Agricultural and Industrial Exhibition is regularly run and great pains are taken to give various useful agricultural and industrial demonstrations before the cultivators. Experts are always invited to teach the ignorant cultivators the elementary laws of maternity and child welfare. People are also being taught by magic lanterns and lectures to take preventive measures against dangerous diseases.

The education and training of the future generation has not been neglected by His High-

ness, who has made generous grants to educational institutions in the State. In addition to the existing educational institutions for boys, he has started a Kannya Mahavidalava also, and is contemplating a scheme of introuducing free Primary education through-

out the State. The Maharaja takes great interest in the training and proexperienced

The Maharaja is a staunch believer in Federation and thinks that the only way out of the present political difficulties lies in a true federal combination of provinces and the states under the British Crown.

SANDUR is the only Mahratta State in South India in direct political relations with the Government of India. It is bounded on all sides by the British District of Bellary except the South where its frontier touches that of Mysore. The Ruling House of Sandur is known by the family name of "Gootyker Giorrade." This State was conquered in early eighteenth century by Raja Siddoji Rao Ghorpade. Hisson Raja Morar Rao Ghorpade is renowned in history as the famous "Chief or Gooty," and held sway over the Mahratta possessions South of Coleroon. During the time of Raja Morar Rao Ghorpade, the State reached the zenith of its territorial expansion. In the Carnatic and Mysore Wars in which the East India Company were engaged in the middle of the eighteenth century, Morar Rao, as the staunchest ally of the British, rendered valuable assistance to the British from time to time notably in the famous siege of Arcot and Trichinovoly and also against Hyder in 1760.

This family was held in high esteem by the British and included in the Treaty of 1782 with Mysore, by which the British Government reserved to themselves the liberty to reinstate Morar Rao's family in the Country of Gooty, which Hyder had seized during the time of Morar Rao who died in 1776. The present extent of the State is but a corner of the country of Gooty, which was reconquered in 1790 by Venkatrao on behalf of Siddoji, the grandson of Morar Rao from Tipu Sultan.

The Peshwa who had for long coveted very much the conquest of Sandur prevailed on the East India Company to demand the surrender of Sandur in 1817 on the pretence that the Ruler of Sandur was one of his refractory vassals, whom the East India Company were

bound by the Treaty of Bassein (1817) to reduce. But, when it was noticed that the Ruler of Sandur was never a vassal of the but that he was an

" independent Prince" before the Treaty of Bassein, his former territory was resfored to him in 1818, on the only condition that there should be free nassage to British troops and surrender of offenders from the British territory, and that there should be no interference whatever with the internal administration of the State. These relations continue to the present day. The State possesses powers life and death and is unfettered in from all pecuniary demands.

The Ruler is the fountain-head of all authority, Judicial, Administrative, and Legislative. The Government of the State is conducted

by an Executive Council. To help the Government, a State Council has been constituted in 1931 with a predominant nonofficial majority possessing the right to initiate legislation, to move Resolutions and ask questions. A Chief Court has been constituted under the Sandur Chief Court Act (II of 1932) arrangeand ments have been made with the Madras Government whereby the District and Sessions Tudge Exofficio, Bellary appointed

PALIHAR RAJ: KUMAR BIMALENDU
ROV OF BALIHAR IS the only son of
Kumar Saradindu Roy Bahadur
and Rani Kusum Kamini Debi, He was
born in B.S. 1305, and belongs to au
aristocratic family of North Bengal tracing
its origin to the Ruling Houses of preBritish days.

During his boyhood he was placed under the training of the well-known scholar Sreejut Ramdayal Mazumdar, M.A., and was successively educated at the Hare School and the Presidency College, Calcutta, After a brilliant scholastic career he passed the B.A., Degree Examination of the Calcutta University with distinction in 1920.

Although young, he has great administrative abilities. On account of the unfortunate ill-health of his father, who leads a retired life in health resorts, the responsibility of looking after the affairs of the big estate devolved on him early in life.

The estate was heavily encumbered at that time. Nevertheless he first but its finances on a

sound footing and organised the administration of the estate so ably that he now stands high in the estimation of neighbouring landlords and British Officers not only of the Naogaon sub-division but also of Rajshahi and other bordering districts.

He married Srijukta Indu Prava Debi, a highly accomplished lady of Chowgram Raj family, and has three sons, Nizualendu, Purnendu and Amalendu, who are all being properly educated.

A great patron of learning, he maintains all the educational, cultural, and charitable institutions founded by his forefathers, and has added to them High Schools (English) and libraries. He liberally contributes to all public causes for the uplift of the rural masses. A fully equipped and up-to-date charitable dispensary has been maintained at Balihar at the excesses of the Raf for a long time now.

Kumar Bimalendu Roy possesses a good physique and is enthusiastic in spreading physical oulture in Bengal. In his student days he was eagerly sought for to take part in every sphere of sports and physical oulture for his excellent all-round attainment in this direction. He encourages all-round development as distinct from mere intellectual attainment and renders financial aid to movements calculated to further this end.

The Kumar's simple picty, stainless character, untiring diligence, liberal hospitality and above all treating rich and poor alike, have endeared him to his friends and admirers. He delights in living in his country seat at Ballhar in rural surroundings and mixing freely with his tenants whose welfare he makes his orincipal concern.

Situated in the very leart of Bailhar Raj Batate is the Historic Mound of Paharpur which is of great Archaeological interest quite familiar to students of Indian History. This was made over to Government by the Kumar with a view to enabling excavations to be carried out by eminent Archaeologists such as Sir John Manshall, K. N. Dikshit, etc., and other scholars under the auspices of the Calcutta University. The excavations reveal a high standard of sculpture in these relies of ancient Bengal, and prove how closely the history of this baloes is interevore with the traditions of the Ballhar Rai.

The Kumar offered his loyal services to the British Government by joining the Bengal Light Horse at the time of the Great War. A popular figure in the official levies and durbars, his love of sports and hunting has won for him the affection and regard of many British officers. He is a prominent member of the Rajshahi District Board which he has been serving for two consecutive terms with popular approbation. HISTORY:-The Moghal records of this family received the title "Rai" (Raja) and also a "Badshahi Panja" (Imperial Insignia) which can still be seen at the Balihar Palace-from the then Nawab of Murshidabad, while his paternal uncle Ram Ram Sanyal, a great administrator, was granted the title "Rai Chowdhury" in 1729. The latter founded the famous Kali Temple at Dilaipur, which has been spoken of highly by the famous British traveller Dr. Taylor. He was also related to the great Rani Satyabati of historic renown who bestowed mon him a jagir for valuable services. Raja Rajendra Roy, another descendant in the line who lived at the time of the advent of the British in Bengal, installed the brass idol of Raj Rajeswari, constructed many Shiva temples and built a brass chariot which is taken through Balibar eyen today on the occasion of the annual Car festival. After him, his widow who

Her adopted son Shibaprasad Roy died prematurely.

Raja Krishnendra Roy

R AJA KRISHMENDRA ROY BAHADUR who succeeded Shibapressad Roy, in addition to managing the estate, divided his
attention between public service and literary composition.

His poetical works, Banaparajon, Jayuntaparajaya, BritaSanhar, Adhhut Natah, Sitaharan, Sitacharit, Gatahali, Suhtabiran, and his proce writings, Esham Ashi, Suanah Nestitestify to his great genius and culture. He has also translated

Righedi Sandhyaproyega into Bengali. A patron of Indian

Music, he was himself a musician of repute and composer of

songs. In his days English education was first introduced in

Sengal, and limited though his knowledge of English was, he

Bengal, and limited though his knowledge of English was, he

started free schools in his estate to popularise it. He built a hall to be used as a common room by the students of the Government College at Rajshahl and another for the Subdivisional English High School at Naogoan. To combat malaria and other epidemics he founded a free hospital on modern lines and improved sanitation by constructing a drainage system, Gardening was his hobby and the famous Mango Avenue-from Saraswatipur to Balihar, was of his making. He had wide aesthetic tastes which found expression in the fine ornamental masonry work of the tanks at Saraswatipur and Bardapur for which he was responsible. As a shikari he hunted regularly in the company of British Officials such as Collectors and Commissioners of Divisions with whom he was intimate. The British Government conferred on him the titles "Raja " in B.S. 1285 and "Raja Bahadur" on the occasion of the Golden Jubilee of Queen Victoria, in celebration of which a fair was held at Saraswatipur near Balihar which is continued even today. On soth of Baishakh 1305 B.S. Raja Krishendra Roy Bahadur passed away at the age of 64 years, and was succeeded by Kumar Saradindu Roy Bahadur who received thorough liberal education at home. UREISHY: RAFIUSHAN IFTIKHARUL MULK, KHAN BAHADUR, LT.-COL., HAJI MAGBOOL HASSAN, M.A., LL.B., Minister for Law and Justice, Bahawalpur Government : belongs to a respectable family of the Kureish of Arabia. Though hailing originally from the Meerut District, his ancestors had long settled in the State before he was born at Bahawalpur in 1900. He received his early education in the State, and, later on, joined the Muslim University, Aligarh, where he passed his M.A., LL.B. in 1925. From his earliest childhood he exhibited traits which gave promise of his future achievements.

His personal magnetism made itself felt in the sphere of his employment, where he won the golden opinions of his colleagues as well as the ruler under whom he served. He began his career in 1925, when he joined the personal staff of His Highness the Nawab Ruler Bahadur of Bahawalpur as an Aide-de-Camp. But, it did not take long to discover that the young incumbent had in him the makings of a capable administrator. Accordingly, in 1927 he was promoted to the rank of Assistant Military Secretary. But this was only a stepping stone, as in January 1930 he was given the combined office of Private and Military Secretary, with the additional charge of the portfolios of Education and Municipalities, and was, subsequently, raised to the status of Minister-in-Waiting. In 1932 he paid a visit to England and other Western countries in company with His Highness the Nawab Ruler Bahadur-a visit which he repeated again in 1935 and in 1936. During the 9 years of his incumbency he has introduced many particularly the Municipalities, and the Court of Wards which he has completely reorganised. It is due mainly to his efforts that the Chief Court of Bahawalpur has been raised to the Status of High Court, He is a very capable and efficient administrator, having won the highest praise of both the ruler and the ruled by his politeness, impartiality, and keen sympathy with the people of the State. YMENSINGH Estate: Maharaja SHOSHI KANTA ACHARYYA CHAU-DRURY of Mymensingh, one of the Chief Noblemen of the Presidency of Bengal, was born at Muktagacha in Mymensingh on the 24th February, 1886. He is the son of the late Maharaja Surja Kanta Acharyya Bahadur, an illustrious Zemindar of Mymensingh, well-known for his many-sided public activities in the province of Bengal, especially for the bold and courageous stand he took in "unsettling the settled fact of the partition of Bengal," Under the nursing care of his illustrious father Shoshi Kanta received his early education with great care and keen solitude. He was educated at the St. Xavier's College, the Doveton College and the Presidency College, Calcutta, He passed the Entrance examination in the year 1904. He went to England for higher education in the year 1907 and joined Downing College, Cambridge. He successfully passed the

Littlego and Additional Examinations and was preparing for the B.A. & LL.B. degrees and also joined Gray's Inn, to qualify for the Bar, but he had most reluctantly, to give up his much coveted studies in England and hurry back home on account of the sudden death of his father and to shoulder the responsibilities of his extensive estates.

Shoshi Kanta inherited from his father a noble and benevolent disposition and high ideal of public spirit. Though a young man, just above his teens, he began to take lively interest in higher education in his own district and his first act of public benevolence was his princely donation of Rs. 45,000 in the year 1900 to the Ananda Mohan College, Mymensingh, which in later days, he supplemented by further donations for the establishment of I. Sc. Class in the same College. His contribution of 1,00,000 rupees in the year 1910 towards the Edward Memorial Fund for the improvement of Mitford Hospital at Dacca deserves particular mention, the cause of Amelloration of suffering humanity is innate in his nature. In 1920, when the Mymensingh Hospital required further extension, Shoshi Kanta made a free gift of land worth about Rs. 30,000 for its new site and contributed 1,00,000 rupees to the Hospital Fund to name it after his illustrious father. He has further equipped the hospital with an X-Ray apparatus at a cost of Rs. 38,000 and has granted an annual subscription of Rs. 1,000 for the upkeep of the hospital. He further gladly made over to the Hospital a sum of Rs. 17,000 received from the Government for value of his lands occupied by the old hospital and now acquired for kotwali thana. In 1910, he contributed Rs. 1,000 towards the cost of the construction of the new Ripon College building, Calcutta. The Maharaja contributed Rs. 2,000 to the Madras famine fund. The devastating flood of Damodar in 1913, moved Shoshi Kanta's heart and he readily contributed Rs. 1,000 for relief work. During the great war in 1914 he contributed Rs. 60,000 for the purchase of a fleet of six Ambulance Motor cars for the Red Cross Society and paid Rs. 40,000 towards the various war relief and ambulance corps funds. He subscribed to the Indian War loan to the extent of 1,00,000 rupees. He has also contributed Rs. 2,250 and Rs. 1,500 to the Silver Jubilee Fund and King George Memorial Fund respectively,

Maharaja Sheshi Kanta filled a long felt want in Mymensingh town by establishing at a considerable cost the Carmichael Club, where Europeaus and Indians, officials and non-officials, have an opportunity to meet. It was mainly due to his efforts that electricity is available at Mymensingh. Besides these acts of benevolence, the Maharaja has granted

monthly stipends to many deserving students and has undertaken to defray foreign education of some of them. Many public and charitable institutions and bodies are regularly receiving his contributions and his purse is always open for all deserving causes.

Shoshi Kanta entered public life in the year 1912 when he was only 26. On the formation of the Presidency of Bengal, he was elected by the land-holders of the Dacca Division to represent their interests in the Bengal Legislative Council, When the Reforms were inaugurated in 1921 Maharaja was nominated by the Governor-General a member of the Council of State. In 1927, Maharaja entered the reformed Bengal Legislative Council as an elected representative of the Decca University graduates. His career in the legislatures is marked by his outspoken advocacy for popular cause in principle. Being in Council, he was a real asset to his community and his persistent zeal and unflinching devotion to their cause were amply demonstrated when he took a keen interest in the moulding of the Bengal Tenancy Act in 1927 to the satisfaction of landlords and tenants alike. Among his other public activities, Maharaja Shosi Kanta was unanimously elected Chairman of the Mymensingh Municipality in 1918 and transacted all its business with conspicuous efficiency till 1921. He also was elected Chairman of Muktagacha Municipality, his native place in 1912. He is connected with various public bodies. He acted as President of the East Bengal Landholders' Association for several years and is the President of the Mymensingh Landholders' Association and the Secretary of the Bengal Landholders' Association. Maharaja Shoshi Kanta is a liberal Hindu and a great social reformer. He is the President of the Hindu Hita Sadhini Sava, a society formed in 1917 for the elevation of depressed classes and for bringing about social and moral regeneration of the Hindus. As soon as the Harijan movement was started by Mahatma Gandhi, Maharaja Shoshi Kanta opened his ancestral Kali and Shiva Temples for worship by all classes of Hindus, He is the President of the Mymensingh Hindu Sabha and presided over the deliberation of Mymensingh District Hindu Conference held at Tangail and was the President of All Bengal Hindu Conferences held at Hilli and Canning Town. He has made over his Palatial House at Benares to the Hindu Mission for the uplift of the Hindus, In Mymensingh Town he has recently constructed a beautiful Siva Temple and has made a free gift of land to the Mymensingh Ram Krishna Pratisthan a social and religious institution of the place.

He is a thorough sportsman and was a very good cricketer in his young days. He was the captain of the Town Club, Calcutta, for several years. To give incentive to Mymensingh Cricket the Maharaja retained many veteran players to coach the local young men. He is also fond of hunting and a lover of games.

In recognition of his public spirit and munificence, His Excellency Lord Hardinge conferred on him the title of Raja Bahadur on the 1st January 1913, at a comparatively young age. Later on, in 1920, the title of Maharaja was bestowed on him by Lord Chelmstord in appreciation of his manifold acts of public utility.

Maharaja Shoshi Kanta has married the third daughter of the late lamented Mr. Byomkesh Chakraborty, M.A., Bar-at-Law of Calcutta. He has three sons and three daughters. His youngest son, Maharaj Kumar Snehangas Kanta Acharyya who is a graduate of the Calcutta University has proceeded to England for higher studies. All his daughters are married.

Maharaja Shoshi Kanta is remarkable for his simple habits, unimpeachable moral character, charitable disposition and unosentatious manner of living. His high culture, affability and amiability of character are too well-known. He is accessible to all from the powerful down to the man of the street, is kind and beenvolent to his tenants and officers, modest and a man of his word, always firm and unyielding in matters of public duty, he is a true ideal, the like of which are very few in these days. By a recent circular, the Maharaja has announced that 5 per cent. of his annual income should be spent for agricultural improvement and for provision of drinking water to the tenants in the villages. In 1987 the Maharaja Saheb was elected a member of the Bengal Legislative Assembly by the Daoca Division Landholders' constituency defeating the president of the then Council.

Zoological Gardens at Lucknow.

Raja Syed Mohammad Saadat Ali Khan possesses in him the literary qualities of his learned father and the managing capacity and generosity of his benevolent mother, to which he has added the vast experience of a traveller having visited many times the continent of Europe and the near East.

There are many Muslim organisations which are indebted to Raja Syed Mohammad Saadat Ali Khan for his financial help and guidance.

Raja Syed Mohammad Saadat Ali Khan is a sportsman in the real sense of the word. He is fond of shikar and is a good shot. He plays tennis, polo and swims. He is a member of all the leading clubs in Paris, London and India. He is also a member of the U. P. Legislative Assembly. He is President of the M. P. Cricket Association and of the U. P. Provincial Moslem League. He is also a patron of the U. P. Aero Club.

Raja Syed Mohammad Saadat Ali Khan also succeeded to the Nanpara Estate in the year 1911—thus bringing both the Estates of Nanpara and Mohamdi under his sway. Hence he is generally known as the Raja of Nanpara-a premier estate in the province of Oudh. The estate of Nanpara has a special reference to its history in the Gazetteer of the Bahraich district. Raja Sir Jang Bahadur Khan, K.C.S.I., maternal grandfather of Raja Syed Mohammad Saadat Ali Khan, can well be styled a most generous and towering personality that has ever owned a Taluqa in Oudh. The title of Raja to the House was conferred in 1763 by Nawab Shuja-ud-Daula, King of Oudh, and recognised by the Government as hereditary. Both the Estates of Nanpara and Mohamdi are very old and reputed for their loval traditions and royal history.

Government Revenue: 3 lakhs.

AWAB SIR MOHIUDDIN FAROQUI, the only son of Kazi RAYAZUDDIN MUHAMMAD FAROQUI, was born in the year 1891 and belongs to one of the few historic families of Bengal. He is the eleventh in descent from Kazi Omar Shah Faroqui, a lineal descendant of Hazrat Omar Faroqui, the second Khalif of Arabia, who migrated to India and settled at Delhi. He was sent out to Bengal as a military commander by Emperor Furrokhshiar and in recognition of his meritorious services was given the grant of extensive Jaghir (rent-free-land) of two parganas in the district of Tippera in Bengal and the original Sanad conferring the Jaghir by

Emperor Furrokhshiar is still in the possession of Nawab Sir Mohiuddin.

Nawab Sir Mohiuddin was educated at the Dacca College under the guardianship of Mr. Archibald, the Principal of the College. Even from a comparatively early age he developed a spirit of public service and a love for public life.

He was the first non-official Chairman of the Tippera District Board, a Commissioner of the Comilla Municipality, Member of the Assam Bengal Railway Advisory Board, Member of the Dacca University Court, an Honorary Magistrate and a Member of the Governing Body of the Comilla College for several years before he entered the arena of politics. As the Chairman of the District Board, he took a very active interest in the matter of communications and the results of his endeavours in this direction may now be seen in the improved roads and well-built bridges widely spread over the district. The Comilla Water Works and the Electric Supply, which have done inestimable benefit to the town, came into existence largely, if not absolutely, owing to the untiring efforts of the Nawab Sahib. A service of immense value that he did, while in the District Board, was the provision of rural water supply by boring tube-wells. He encouraged the spread of education, higher and primary, in his district and it was he who was instrumental in raising the Comilla Victoria College from the second-grade to the first-grade institution that it is to-day.

He was a member of the Bengal Legislative Council since the introduction of the Montagu-Chelmsford Reforms and was the non-official Chief Whip of the Council till he was appointed in 1929 Minister to the Government of Bengal in charge of Agriculture, Industries, Cooperation, Veterinary Department and Public Works. It is a matter of no little honour and distinction that he was elected by the Bengal

Legislative Council to represent the Province in the Provincial Simon Committee where his services were acknowledged with great appreciation by the Rt. Hon'ble Sir John Simon. Nawab Sir Mohinddin was the Leader of the House in the Council and this was pertaps the only and the first instance in the history of Provincial Councils that a Minister (who was returned as an elected member) had been made the Leader. The services that he gave as the Leader of the House, to the country and the Government were worthy of his trained sagacity, mature experience and wide knowledge of men and matters.

As a Minister to the Government Nawab Sir Mohiuddin gave effect to a considerable number of measures which have already had. or are likely to have in future, far-reaching results in improving the conditions of agriculture and industry of the Province. He introduced and successfully piloted the State Aid to Industries Act. a measure of great promise and usefulness, inasmuch as it affords an opportunity to small and nascent industries to grow up with aid, as far as possible, from the Government. His scheme for the relief of unemployment amongst educated middle-class young men is of great significance and is the first of its kind since the inauguration of the Reforms, intended to open up new avenues of employment through industrial develop-ment of the Province. The United Provinces Unemployment Committee, presided over by the Rt. Hon'ble Sir Tei Bahadur Sapru. P.C., K.C.S.I., LL.D., has in its report many words of praise for the scheme. He took steps to establish Co-operative Land Mortgage Banks for the relief of agricultural indebtedness and his scheme for restriction in the cultivation of jute with a view to fetch a better income to the cultivators has been a measure of immense bene-He made serious endeavours to improve the animal husbandry of the Province and significant results are already available of the various agricultural researches taken up at his instance. The scheme for the training of detenus (persons detained for political reasons) in industrial and agricultural pursuits in order to afford them an opportunity to prove themselves useful citizens, is now having a trial and its results are awaited with interest all over India. Nawab Saheb was the author of the Water Hyacinth Act which provided for removal of the water hyacinth pests from the province with organised effort. As a result many districts in Bengal are now entirely free from this pest. To give cheap credit facilities to commercial people an Industrial Credit Corporation Bank has been established with ten lakhs guarantee against loss by Government. The Daulatpur Agricultural College has been established for agricultural education and is the only one of its kind in the Province.

He enjoys the confidence of all sections of the people in the Province. In recognition of his meritorious services and activities he was honoured with the title of "Khan Bahadur" in 1924, with that of "Nawab" in 1932. On the New Year's day, 1936, His Majesty the late King-Emperor conferred on him a Knighthood, a distinction which he richly deserved.

He married Quatrina Sultana Zobeida, eldest daughter of the Hon'ble Alhadj Nawab Bahadur Sir Abdelkerim Ghuznavi, Kt., of Dilduar, Ex-Member of the Executive Council, Government of Bengal.

YAWAB MUHAMMAD Moin-ud-din Khan, NAWAR MOIN-UD-DOWLA, BAHADUR, the only son of the late Nawab Sir Asman Jah Bahadur, one of the three great Paigah Nobles of the Hyderabad State, was born in Hyderabad (Deccan) in the year 1891. Nawab Moinud-Dowla's Paigah or feudal state covers an area of 1.821 square miles and has a population of 276,533. while its annual revenue amounts to Rs. 22 lakhs. He carries on the adminis-

tration with the help of a Council consisting of a President and two Members.

In 1919 Nawab Moin-ud-din Khan Bahadur was given the title of Nawab Eyanath Jung, and in 1922 the title of Nawab Moin-ud-Dowla. In 1923 he was appointed Minister in charge of the Industrial Department and also a Member of the Executive Council. The next year he was given charge of the Military Department and in 1927 he resigned the post, for, by an order of His Exalted Highness the Nizam, his Paigah Estates were released from the Court of Wards and he was made the Amir of the Sir Asman Jahi Paigah.

Though at one time a keen rider, Polo Player and Racing Noble, Nawab Moin-ud-Dowla Bahadur's present main recreation is shooting. He is also passionately fond of watching cricket, and he has done much to encourage the game and raise its standard not only in Hyderabad (Deccan) but in the whole of India. The All-India Gold Cup Cricket Tournament, which was started seven years ago as a result of his munificence, attracts to Hyderabad most of the best Cricketers in India. The last M.C.C. and Australian fixtures in Secunderabad, Deccan, were also due to his keen interest in Cricket and his generosity.

The founder of the Gadi or the institution was-

Sakalmatacharya Shri Sadguru Manik Prabhu Maharaj.

Born: In 1817 A.D., at Ladwanti (a Paigah village). Manohar Naik, the father of Shri Prabhu, was a member of a wealthy "Naik" family of Kalyani. He died when Shri Prabhu was only four years old. Shri Prabhu spent his boyhood at Kalyani at his uncle's house. Even when he was a boy of eight or so, he performed many strange and extraordinary miracles, which convinced people around of his greatness, and they were inspired to regard him as an incarnation of God. Later, Shri Prabhu made Maniknagar his place of residence. Maniknagar, which today stands on the inam lands of the State, was a thick forest haunted by robbers and highwaymen, before Shri Prabhu came to stay, here. This was a period of tumult and unrest in the history of the Deccan. The struggle for existence had been very hard, and the rivalry between the different communities very keen.

At this critical juncture Shri Prabhu founded his "Sakalmat-Sampradaya"—a sect which comprehends all thoughts and creeds. A perfect seer and a saint, he preached by personal action and spread the cult of universal love, brotherhood and co-operation.

Sakalmat-Sampradaya. as he named his sect, believes that soul-force is the foundation of everything, and the source of

all desired objects in this world or rank. Forms worship mere

beyond. One single soul pervades the universe, and whatever is created has its use and value. Each one of us is on the same pathway to God, though the form of worship may vary according to individual taste and spiritual being expedients will always multiple. Shri Prabhu was famous for his liberal charities and open-handed gifts. True to his cult of love and toleration, he celebrated the festivals of the Hindus and the Mohamedans alike, with great pomp and dignity.

Shri Prabhu has been Universally acknowledged as an "avatar' OF SHRI DATTATRAYA. Endowed with supernatural powers, his life was studded with miraculous acts from boyhood till the end. One of the many such miracles in which Shri Prabhu saved a sinking ship from his seat has been alluded to by Maharaja Sir Kishen Prasad Bahadur in his memories "Jajbat-e-shad"

Shri Prabhu observed "brahmacharya" up to the last, and chose to close the chapter of his existence by entering "samadhi" in 1865. His mission was successfully continued by his two nephews:

SHRI MANOHAR MANIK PRABHU (1865-1877). (2) SHRI MARTAND MANIK PRABHU (1877-1936).
